

"Dreaming With You"

Close your eyes
Say goodnight
Drift off into a dream
I promise I'll be by your side
When you wake
Oh, when you wake
Shooting stars
Spell out your name
Watch them all shine for you
They'll carry you to
The most magical place
The most magical place

Go to sleep, go to sleep
Go to sleep, [**little Sofia**]
The sun's trading places
With the stars and the moon
The honeybees and the bluebirds
The daisies and roses are all closing their eyes
And dreaming with you
They're dreaming with you

In your dreams
You can be anything that you wish
A cat or a fish
A puppy or unicorn
Find your wings
Time to explore
Take to the sky
You'll learn how to fly
That's what dreaming is for
That's what dreaming is for

Go to sleep, go to sleep
Go to sleep, [**little Sofia**]
The sun's trading places
With the stars and the moon
The honeybees and the bluebirds
The daisies and roses are all closing their eyes
And dreaming with you
They're dreaming with you
